

Double your

OUTDOOR SPACE

BENEFITS

- » Shields the area below your deck from rain, snow, sun, and other elements
- » Protects the deck substructure from moisture
- » Holds deck screws in place longer
- » Easy to install

HOW IT WORKS

Trex RainEscape is a unique under-deck drainage system that uses a network of troughs and downspout construction to keep rain, spills, and snowmelt from dripping through elevated deck boards.

The trough and downspout drain water away from your deck, allowing the area below your deck to be dry and safe from the elements. This revolutionary system is affordably priced and available in black and brown.

For ideas on how to create your perfect outdoor oasis, visit our website at trexrainscape.com.

A SIMPLE THREE-STEP INSTALLATION PROCESS

1 INSTALL DOWNSPOUTS AND TROUGHS

2 STAPLE INTO PLACE

3 TAPE ALL JOINTS AND SEAMS
